

QUESTION 24 OF 52: NOT ANSWERED

The author of Passage 1 indicates that becoming adept at using the Internet can

-
- A** make people complacent about their health.

The author of Passage 1 does not address how using the Internet affects people's health.

- B** undermine the ability to think deeply.

The author of Passage 1 cites Patricia Greenfield's study, which found that people's use of screen-based technologies weakened their ability to acquire knowledge, perform "inductive analysis" and "critical thinking," and be imaginative and reflective. The author of Passage 1 concludes that the use of screen-based technologies interferes with people's ability to think "deeply."

- C** increase people's social contacts.

The author of Passage 1 does not address how using the Internet affects social contacts.

- D** improve people's self-confidence

The author of Passage 1 does not address how using the Internet affects self-confidence.
