

QUESTION 12 OF 52: **NOT ANSWERED**

In the passage, the author anticipates which of the following objections to criticizing the ethics of free markets?

A

Smith's association of free markets with ethical behavior still applies today.

It is not an objection that criticizes the ethics of free markets.

B

Free markets are the best way to generate high profits, so ethics are a secondary consideration.

It is not an objection that criticizes the ethics of free markets.

C

Free markets are ethical because they are made possible by devalued currency.

The author does not present the opinion that free markets depend on devalued currency.

D

Free markets are ethical because they enable individuals to make choices.

The author suggests that people object to criticizing ethics in free markets because they believe free markets are inherently ethical, and therefore, the role of ethics in free markets is unnecessary to study. In the opinion of the critics, free markets are ethical because they allow individuals to make their own choices about which goods to purchase and which goods to sell.
