

QUESTION 23 OF 52: NOT ANSWERED

Which choice provides the best evidence for the answer to the previous question?

A lines 2–3 (“Certain... Net”)

The author of Passage 1 provides evidence that the use of screen-based technologies has some positive effects: “Certain cognitive skills are strengthened by our use of computers and the Net.”

B lines 20–21 (“But... smarter”)

It does not provide the best evidence that the use of screen-based technologies has some positive effects. It introduces and describes the author’s reservations about screen-based technologies.

C lines 21–25 (“In a... ability”)

It does not provide the best evidence that the use of screen-based technologies has some positive effects. It introduces and describes the author’s reservations about screen-based technologies.

D lines 25–27 (“She... others”)

It does not provide the best evidence that the use of screen-based technologies has some positive effects. It introduces and describes the author’s reservations about screen-based technologies.
