

QUESTION 50 OF 52: NOT ANSWERED

In the graph, which isotherm displays an increase in depth below the surface during the period 19:12 to 20:24?

---

**A** 9°C

During the time period 19:12 to 20:24 the 9°C isotherm decreased in depth.

---

**B** 10°C

During the time period 19:12 to 20:24 the 10°C isotherm decreased in depth.

---

**C** 11°C

During the time period 19:12 to 20:24 the 11°C isotherm decreased in depth.

---

**D** 13°C

During the period 19:12 to 20:24, the graph shows the 13°C isotherm increasing in depth from about 20 to 40 meters.

---

QUESTION 51 OF 52: NOT ANSWERED

Which concept is supported by the passage and by the information in the graph?
