

QUESTION 35 OF 52: NOT ANSWERED

Stanton claims that which of the following was a relatively recent historical development?

A The control of society by men

Stanton describes men's control of society.

B The spread of war and injustice

Stanton describes the prevalence of war and injustice as long-established realities.

C The domination of domestic life by men

Stanton describes men's domination of the domestic sphere.

D The acknowledgment of women's true character

Stanton states that men's absolute rule in society is "crushing out all the diviner qualities in human nature," such that society knows very "little of true manhood and womanhood." Stanton argues that society knows less about womanhood than manhood, because womanhood has "scarce been recognized as a power until within the last century." This statement indicates that society's acknowledgement of "womanhood," or women's true character, is a fairly recent historical development.
