

QUESTION 13 OF 52: NOT ANSWERED

Which choice provides the best evidence for the answer to the previous question?

A lines 4–5 (“Some... ethical”)

The author states that some people believe that free markets are “already ethical” because they “allow for personal choice.” This statement provides evidence that some people believe criticizing the ethics of free markets is unnecessary, because free markets permit individuals to make their own choices.

B lines 7–10 (“But... about”)

It does not provide the best evidence of an objection to a critique of the ethics of free markets.

C lines 20–21 (“Smith... outcome”)

It does not provide the best evidence of an objection to a critique of the ethics of free markets.

D lines 45–47 (“When... way”)

It does not provide the best evidence of an objection to a critique of the ethics of free markets.
