

QUESTION 30 OF 52: NOT ANSWERED

Which choice best describes the relationship between the two passages?

A

Passage 2 relates first-hand experiences that contrast with the clinical approach in Passage 1.

It does not accurately describe the relationship between the two passages. Passage 1 does not take a clinical approach to the topic.

B

Passage 2 critiques the conclusions drawn from the research discussed in Passage 1.

The author of Passage 1 cites scientific research that suggests online and screen-based technologies have a negative effect on the brain. The author of Passage 2 is critical of the research highlighted in Passage 1: "Critics of new media sometimes use science itself to press their case, citing research that shows how 'experience can change the brain.' But cognitive neuroscientists roll their eyes at such talk."

C

Passage 2 takes a high-level view of a result that Passage 1 examines in depth.

It does not accurately describe the relationship between the two passages. Passage 2 does not take a high-level view of a finding examined in depth in Passage 1.

D

Passage 2 predicts the negative reactions that the findings discussed in Passage 1 might produce.

It does not accurately describe the relationship between the two passages. Passage 2 does not predict negative reactions to the findings discussed in paragraph 1.
